

VRIN

Virtual Reality for Migrants
Social & Cultural Orientation
and Inclusion

Co-funded by
the European Union

About the project/ What is VRIN?:

The VRIN project envisions to promote the effective integration of TCNs in local communities by providing intervention tools for training, as a means of making the process of acquaintance with the local context more interactive, interesting and attractive. The target groups will undertake a participative learning path for the development of their skills, competences and acquire new ones, with the final aim of a mutual cooperation for integration in society and the labour market.

Objectives:

- To establish a pioneer two-way integration model through innovative targeted training to both actors involved in TCN integration (namely: interpreters, cultural mediators and all type of integration assistants) and TCNs.
- To help TCNs overcome obstacles towards a smoother access to substantial services like health care, labour market, vocational training, social security benefits, housing, financial procedures, lifelong learning.
- To enhance TCNs' ability to access useful information which will help them ameliorate their everyday life and communication.
- To provide TCNs with the opportunity to develop targeted language skills addressing the every-day communication and tailored to their practical needs.

- To boost service providers and integration assistants' capacity to deal with TCNs' needs and different cultural background, thus boosting their intercultural skills.
- To prioritise the inclusion for diversity in all fields of education and training.

Target Groups:

- TCNs
- Actors of TCNs' integration
- Key professionals working in areas relevant to TCN
- Stakeholders in the field of TCNs' integration

Project Results:

PR1-VRIN Interactive Training Curriculum for providing the local communities, authorities, operators, stakeholders and training centers, among others, with a tool, aligned with the latest trends of digital evolution (VR and Gamified Environment). It will develop innovative approaches to facilitate access to basic services that can be adapted to, local contexts; improved access to comprehensive health care services, social security benefits for TCNs, as well as to services facilitating labour market integration, financial services, housing and helping to provide them with affordable accommodation based on their needs.

PR2-VRIN Online Platform to be used as a valuable tool for TCNs' learning and integration.

PR3-VRIN Interactive Guidebook including the views and general contribution of integration assistants and stakeholders in order to bring local and international stakeholders closer as a means of multiplying the project's impact and also spreading its benefits.
